After clicking 'view' in Account Openings audit for branch, popup appears with sample data analysis :

#Session timeout feature enabled which redirects to login page.

Database used : Postgresql

The screenshot shows the pgAdmin 4 interface. On the left, the Object Explorer displays the database structure, including Schemas (1), public, and Tables (4). The 'acc_dtl' table is selected. The main pane shows the 'Data Output' tab with a single row of data. The status bar at the bottom indicates 'Total rows: 1 of 1' and 'Query complete 00:00:00.151'.
